Nothing Vital to Allegheny County in Legislation So Far.

BILLS ACTED ON BY PATTISON.

Five of the Thirty-Nine Bills Presented to Him Were Vetoes.

MEASURES THAT ARE NOW LAWS

SPECIAL TELEGRAM TO THE DISPATCH.

HARRISBURG, May 2.—Seventeen weeks of the session of the Legislature are gone, and only 39 bills have reached the Governor. Thirty-one bills were signed by the Governor, and three are awaiting his action. The bills approved are as follows:

IS IT TRUE?

Indisputable Facts Given as Conclusive Evidence.

DO YOU DOUBT NOW?

It is our intention to show conclusively to the readers of this article the cause, action and results of catarrh.

There are many causes of catarrh. Those most frequent are repeated colds, due to our changeable climate, breathing of dust-laden air and inhaling the air of badly ventilated rooms. However, anything that tends to lower or weaken the vitality of the system renders these causes more active.

The first action of catarrh is upon the mucous membranes of the nose and throat, causing a highly inflamed condition of these parts. The inflamed membrane may or may not discharge mucus. The condition which causes a discharge of mucus is called hypertrophic or "wet" catarrh. This mucus discharge is often times swallowed. The catarrhal poison thus taken into the system causes an entire functional derangement. That in which there is little or no mucus secreted is called atrophic or "dry" catarrh. In this condition the membranes become cracked or fissured, crusts and ulcers may form. Dry catarrh in nearly every case leads to a very offensive odor.

The results of a kind are a diseased condition of the nasal passages, throat, lungs, affections of the ears and eyes, stomach and the entire nervous system.

In cold, wet or changeable weather the results or effects are more noticeable by the patient than in fine weather, such as we are now experiencing. Nevertheless, do not take the cessation of these disturbances as evidence that the disease is leaving your system. It is only gaining strength to break out in a more forcible manner at some future favorable time.

It is natural to suppose, after reading the preceding, that the only sure and rational treatment is one in which both local and systemic conditions are treated. This is where Dr. Copeland and his treatment takes full precedence over all others. Only successful results are nothing more than the natural outcome of a scientific and methodical treatment, such as is given by no other specialists.

Mr. Adam Alter, residing at Cramer way, Mt. Washington, Pa., writes: "I was a sufferer for over a year. There were terrible pains in my forehead and back of head. My nose was always stopped up. The mucus continually dropped into my throat, and I was always hacking and spitting to relieve myself. My throat was raw and sore, and in the morning my counting was continual. I had both sharp and dull pains in the chest, and terrible pains in the muscles of the legs. My muscles became so affected that I wore bandages to relieve myself. I had no appetite, and was always tired in the morning. I heard of Dr. Copeland and his treatment, and concluded to give them a trial. My recovery was rapid. Today, only one month after beginning, my condition is so changed that it seems almost remarkable to me. I feel better now than ever before, and can truly recommend them to all who suffer from catarrhal troubles."

PERFECTION IN QUANTITY AND QUALITY.

The above distinctive feature is truthfully claimed for our stock of Men's Clothing. PERFECT IN QUANTITY because it is not only the vastest assortment in the city, but embraces everything suitable for and required by all ages, classes and conditions of men. PERFECT IN QUALITY because, despite its immensity, it does not include one single, solitary shoddy garment. True, we keep Men's Suits as low as \$5, but they are thoroughly reliable goods, and not the trashy things offered elsewhere at this price. Now, as to FINEST CLOTHING, our supremacy is unquestioned. Of course, there is no reason why other houses cannot keep the same fine grades of clothing as we do. They can. But they don't. And do you know why? Simply because they make more money by selling medium qualities under the guise of the finest. That's it. Asking our prices, but selling inferior goods. Thus it happens that we sell at \$12 the same identical suits for which other clothiers ask \$15, or, if you will spend \$15 at our store, you will get the same suit for which you would have to pay \$18 elsewhere. When it comes to our very finest Imported Dress Suits at \$18, \$20 and \$25, (made in our own Merchant Tailoring Department, right here on the premises) other clothiers are simply "NOT IN IT." They, too, may have suits at \$18, \$20 and \$25, but, on short examination, you will find them 25 per cent inferior to ours. This is a true and concise statement of the relative positions in the clothing trade of Kaufmanns and their competitors.
